

SPF UMBRELLA TRUST FUND GRANTS

2024

SPF Umbrella Trust Fund Grants

APPROVED AS OF DECEMBER 31, 2024

| REGION | COUNTRY AND GRANT TITLE | DEVELOPMENT OBJECTIVE | START DATE | GRANT AMOUNT |
|---|---|---|---------------|--------------|
| AFRICA, EASTERN AND SOUTHERN | Great Lakes Region: Social Protection Systems for Forced Displacement <i>TFOC4683</i> | Analyze how social protection systems in the Great Lakes Region have been used in response to internal displacements, in order to adapt and enhance the effectiveness and responsiveness of the social protection systems. By rigorously assessing key impacts of social protection system responses to significant internal displacement and returnee issues on vulnerable and host communities in the region, the grant will allow partners to jointly identify strengths and weaknesses and policy options to proactively adapt and enhance the effectiveness and responsiveness of their social protection systems. | April 2024 | \$250,000 |
| | Burundi: Tackling Climate Drivers of Fragility <i>TFOC4644</i> | Define investment priorities for tackling drivers of climate-related fragility and enhancing social inclusion in rural collines, including identifying ways to reduce climate-induced land-related conflicts. The grant is expected to inform the design of new climate and development investments, which are needed to restore the country's fast-degrading landscapes under climate change, secure land rights, and restore social cohesion among rural populations living off fragile agricultural lands. | April 2024 | \$200,000 |
| | Ethiopia: Enabling resilient recovery and reconstruction <i>TFOB8304</i> | Support the Government of Ethiopia to assess the impacts of the conflict across northern Ethiopia, laying the foundations for a longer-term recovery and reconstruction strategy. The grant will develop a structured process to facilitate dialogue, partnership, and consensus-building activities to conduct a multi-dimensional assessment of conflict impacts and recovery and reconstruction needs, and support prioritization and sequencing of interventions in a resilient recovery and reconstruction strategy. | March 2022 | \$400,000 |
| | Ethiopia: Strengthening implementation of women empowerment and GBV prevention <i>TFOB9145</i> | Enhance the capacity of implementing agencies to design, implement and monitor high-quality gender communication activities to support interventions on closing gender gaps and eliminating gender-based violence in selected operations. | July 2022 | \$275,000 |

| REGION | COUNTRY AND GRANT TITLE | DEVELOPMENT OBJECTIVE | START DATE | GRANT AMOUNT |
|---------------------------------------|---|---|------------|--------------|
| AFRICA, EASTERN AND SOUTHERN | Ethiopia: Social Cohesion and Conflict Transformation <i>TFOC1654</i> | Study the key structural social issues underlying conflict in contemporary Ethiopia to design a set of social policy actions that can inform a new social development policy operation. The grant seeks to find answers to what aspects of social policy could help forge social bonding between and amongst heterogenous communities that are polarized along ethnocultural and identarian lines and thereby inform thinking on specific social actions that could support conflict transformation. The grant will significantly contribute to the Country Partnership Framework (FY24) which is to be informed by the social dimensions of cohesion and resilience. | May 2023 | \$250,000 |
| | Madagascar: Climate Resilience and Fragility in Southern Madagascar <i>TFOC0989</i> | Analyze social dimensions of climate change and fragility in order to support the government to define and implement just and inclusive climate-resilient development programs for the South. The grant supports analytic work on the nexus between climate change and social exclusion, which contribute to the Country Climate and Development Report and inform how development goals and programs for the South can be best achieved in the context of fragility. | March 2023 | \$250,000 |
| | Mozambique: Costs and Risks of Conflict in Northern Mozambique <i>TFOC4944</i> | Estimate the economic and social costs and risks of the ongoing conflict in the North of Mozambique to enhance prevention efforts and to strengthen dialogue with the Government and with key partners. The grant seeks to estimate the socio-economic costs of the conflict on affected households, identify which potential risk factors at the level of households and communities may contribute to the persistence and/or further spread of violence and instability, and disseminate the findings to the Ministry of Economy and Finance, development partners, and other stakeholders across the humanitarian-development-peace nexus that are operating in the north. | May 2024 | \$50,000 |
| | South Sudan: Strengthening Public Financial Management <i>TFOC0926</i> | Provide analytics and recommendations on how to support improved PFM transparency and accountability; and strengthen fiscal decentralization for improved service delivery. The grant contributes to building and consolidating peace by enhancing the government's stewardship of public resources and thereby building trust and establishing a more constructive social contract with its citizens. | March 2023 | \$300,000 |

| REGION | COUNTRY AND GRANT TITLE | DEVELOPMENT OBJECTIVE | START DATE | GRANT AMOUNT |
|---------------------------------------|---|---|--------------|--------------|
| AFRICA, EASTERN AND SOUTHERN | Zimbabwe: Shock responsive social protection action plan <i>TF0B9254</i> | Develop an Action Plan and Standard Operating Procedures for shock responsive social protection in Zimbabwe. These will be developed under the leadership of the Ministry of Public Service, Labour, and Social Welfare and in partnership with development and humanitarian partners. They will form the basis for a shock-responsive social protection system to respond to crises and meet the needs of vulnerable people. | August 2022 | \$300,000 |
| | Zimbabwe: Supporting transition out of fragility through strengthening the capacity for data production, dissemination, and use <i>TF0C1551</i> | Strengthen the capacity of Zimbabwe National Statistics Agency (ZIMSTAT) to produce high-quality data to inform the reform measures outlined in the government's Arrears Clearance and Debt Resolution Roadmap. | May 2023 | \$180,000 |
| | Zimbabwe: Zimbabwe Socio-Economic Transformation Fund (ZISET) <i>TF073043</i> | Promote economic stability and inclusive growth in Zimbabwe by strengthening the private sector to create jobs, improving public sector effectiveness and access to basic services, and building climate resilience. The SPF contribution to the ZISET multi-donor trust fund supports data collection for the expansion of household coverage of the social registry, a key objective of ZISET. Operationalization of the social registry will lay the foundation for targeted social protection programs in the reform period to offset and mitigate the impact on poor and vulnerable households, which may also help to manage some of the risks associated with deepening fragility. | October 2024 | \$700,000 |
| AFRICA, CENTRAL AND WESTERN | West Africa: Digital Innovations for Community and Local Development in West Africa <i>TF0C1366</i> | Support the co-creating, piloting and scaling-up of a digital community and local development (CLD) platform in selected operations across FCV hotspots in West Africa to strengthen government capacity in monitoring and supervision for improved implementation of CLD projects, empower community facilitators to ensure inclusive participation more effectively, and enhance the visibility of and coordination for community identified investments. | April 2023 | \$400,000 |

| REGION | COUNTRY AND GRANT TITLE | DEVELOPMENT OBJECTIVE | START DATE | GRANT AMOUNT |
|--------------------------------------|--|--|--|---|
| AFRICA, CENTRAL AND WESTERN | West Africa: Strengthening social cohesion in West Africa <i>TF0C5238</i> | Test innovative approaches to improve inter-group social cohesion in selected areas of West Africa. The interventions to be piloted will support inter-group social cohesion through perspective-sharing mechanisms designed to improve participants' ability to understand and empathize with the experience and outlook of others, especially those belonging to "outgroups." Activities will be deployed in fragile areas within the northern regions of Benin and Côte d'Ivoire. | June 2024 | \$250,000 |
| | Guinea-Bissau: Supporting an FCV sensitive approach in Guinea-Bissau <i>TF0B9962</i> | Enhance the FCV sensitivity of World Bank engagement in Guinea-Bissau, with a more resilience-focused approach. The grant will support the Country Management Unit and task teams to adapt their approaches to be more effective in a highly fragile environment through a better understanding of resilience, and to incorporate appropriate actions aimed at mitigating fragility and supporting resilience. | November 2022 | \$265,000 |
| | Sierra Leone: Innovative solutions for land dispute resolution <i>TF0C2630; TF0C4882</i> | Pilot innovative approaches for reducing fragility and conflict in the context of the land administration reform process and build capacity among land sector civil society organizations to support communities and land governance, with particular emphasis on the needs of women, youth and other disadvantaged and vulnerable populations. | September 2023 (Bank-executed) June 2024 (Recipient-executed) | \$375,000 (Bank-executed) \$2,985,300 (Recipient-executed) |
| EAST ASIA AND PACIFIC | Papua New Guinea and Solomon Islands: Piloting approaches in FCV, Solomon Islands and PNG <i>TF0C6833</i> | Improve the management of FCV and compound risks in conflict-affected and fragile areas in Papua New Guinea and Solomon Islands. This grant will pilot approaches for integrating FCV and compound risk sensitivity into client engagement, project design, implementation, and operational support. | January 2025 | \$350,000 |

| REGION | COUNTRY AND GRANT TITLE | DEVELOPMENT OBJECTIVE | START DATE | GRANT AMOUNT |
|--------------------------|--|---|--|---|
| EAST ASIA AND PACIFIC | Myanmar: Supporting resilience in Myanmar <i>TF0C0160</i> | Test innovative approaches to coordinating and monitoring interventions between humanitarian and development actors and to consolidate and disseminate lessons learned. The grant will enhance understanding of the context and effectiveness of the Myanmar Community Resilience Project activities, draw lessons from the engagement in Myanmar, and disseminate knowledge for possible scale-up in-country and for application in other FCV contexts. | December 2022 | \$400,000 |
| | Myanmar: Transitional Needs and Response Planning to Foster Income Resilience Among IDPs <i>TF0C7237</i> | Inform transitions from humanitarian aid to livelihood and employment programming for internally displaced persons (IDPs) and returnees. The project's primary goal is to develop a Transitional Needs and Response Plan (TNRP) for IDPs, modeled after the impactful Humanitarian Needs and Response Plan that guides humanitarian programming. The TNRP will assist UN agencies and World Bank teams in implementing livelihood and employment programs for IDPs and returnees. | January 2025 | \$320,000 |
| | Thailand: Psychosocial services for traumatized persons in conflict-affected areas <i>TF0C2865</i> | Design recommended modalities for the government to consider integrating psychosocial services with livelihood support for the sustained socio-economic well-being of the victims of trauma in the conflict-affected provinces of in the provinces of the Deep South. The grant provides assesses socio-economic conditions and needs of conflict-affected families, especially women-headed households, and further develops a recommended list of local organizations and practitioners who provide psychosocial services and livelihood support. | October 2023 | \$300,000 |
| | Thailand: Psychosocial services for traumatized persons in conflict-affected areas <i>TF0C3170; TF0C4328</i> | Strengthen the capacity of providers to deliver psychosocial services in the three conflict-affected provinces of the Deep South and design modalities for integrating these services with livelihoods support for the sustained socio-economic well-being of the victims of trauma. | November 2023 (Bank-executed) May 2024 (Recipient-executed) | \$100,000 (Bank-executed) \$1,100,000 (Recipient-executed) |

| REGION | COUNTRY AND GRANT TITLE | DEVELOPMENT OBJECTIVE | START DATE | GRANT AMOUNT |
|--|---|---|--|---|
| EUROPE AND CENTRAL ASIA | Central Asia: Addressing and enhancing resilience to FCV <i>TF0B8749</i> | Support the Central Asia region in addressing transboundary drivers and risks of FCV and strengthen transboundary resilience in fragile border areas. The grant supports just-in-time analysis to inform World Bank regional operations that support resilience to transboundary FCV drivers and risks; regional policy dialogue and stakeholder engagement; and fragility risk monitoring. | June 2022 | \$250,000 |
| | Armenia: Mental Health and Psychosocial Support in Armenian Schools <i>TF0C4579; TF0C5297</i> | Improve mental health and psychosocial wellbeing of child and adolescent refugees in selected schools. The project components are: (1) provision of school integration, needs assessment, and mental health and psychosocial support (MHPSS) to child and adolescent refugees, their families, their peers, and broader school community, and (2) technical assistance to strengthen the capacity to design and roll out a tailored MHPSS program. | April 2024 (Bank-executed) August 2024 (Recipient-executed) | \$285,000 (Bank-executed) \$2,600,000 (Recipient-executed) |
| | Azerbaijan: Support for recovery and peacebuilding <i>TF0B8777</i> | Build government capacity to implement recovery and peacebuilding activities through improved knowledge of current circumstances and the identification of effective approaches for response. The grant supports technical assistance with priority areas for recovery and reconstruction of conflict-affected territories, such as urban planning, cultural heritage and tourism, and management information systems. The grant also supports a follow-up IDP survey to assess changes in IDP livelihoods. | June 2022 | \$400,000 |
| | Azerbaijan: Improved livelihoods for internally displaced persons <i>TF0B9224; TF0C0391</i> | Enhance civic engagement, technical skills and opportunities for income generation for vulnerable internally displaced populations. The grant provides training to up to 520 internally displaced people to learn a trade in the form of either classroom-based vocational training or traditional apprenticeship programs and provide job placement or business development support for those successfully completing the vocational training. It further improves government policy and program implementation on recovery and peacebuilding. | August 2022 (Bank-executed) June 2023 (Recipient-executed) | \$400,000 (Bank-executed) \$2,000,000 (Recipient-executed) |

| REGION | COUNTRY AND GRANT TITLE | DEVELOPMENT OBJECTIVE | START DATE | GRANT AMOUNT |
|--------------------------------------|---|--|---|---|
| EUROPE AND CENTRAL ASIA | Kosovo: Public Information Awareness Services <i>TF0C0809; TF0C2485</i> | Improve access to land and property registration information and counseling services for women, youth, and vulnerable persons in Kosovo. The grant supports civil society organization networks to foster partnerships for the benefit of the land sector and to emphasize the benefits of land and property registration for inclusive socioeconomic development. | March 2023 (Bank-executed) October 2023 (Recipient-executed) | \$375,000 (Bank-executed) \$2,825,000 (Recipient-executed) |
| | Romania: Supporting Romania with Ukrainian forcibly displaced crisis <i>TF0B9966</i> | Strengthen registration and support services for Ukrainian forcibly displaced populations through identifying gaps and opportunities to inform evidence-based policies and supporting services. The grant supports data collection to identify user-centric solutions to enhance service delivery; help the authorities to document bottlenecks in the delivery of selected support services for forcibly displaced people; and engage authorities and service providers in pilots to co-create solutions. | December 2022 | \$290,000 |
| LATIN AMERICA AND CARIBBEAN | Central America: SAFE migrations <i>TF0B8645</i> | Carry out a Survivor-centered Accessibility Framework Evaluation (SAFE) along migratory routes in Central America. The grant supports a framework assessment of physical, legal, institutional, and social accessibility to gender-based violence services among survivor women migrants. | June 2022 | \$400,000 |
| | Central America: Food security, migration, and fragility and violence in Northern Central America <i>TF0C5024</i> | Generate insights into the root causes of outmigration from Northern Central America by exploring the complex interaction of food security, climate change, and fragility and violence. By analyzing food security, climate change, and violence-linked migration, the grant will provide data, analytics, and policy dialogue to expand the regional and country-specific knowledge base, identify hotspots and areas of priority needs, and contribute to continued engagement and investment in the agrifood sector for the creation of resilient job opportunities, especially in rural areas. | June 2024 | \$350,000 |
| | Latin America: Edutainment for social inclusion <i>TF0C5749</i> | Promote social inclusion among host communities and Venezuelan migrants and refugees in Latin America through a regional edutainment intervention. Working with the International Organization for Migration, the grant will support production of a fictional 5-episode audiovisual series, portraying the challenges faced by migrants and refugees during their intra-regional movements, while highlighting their positive impact on host communities | July 2024 | \$400,000 |

| REGION | COUNTRY AND GRANT TITLE | DEVELOPMENT OBJECTIVE | START DATE | GRANT AMOUNT |
|-----------------------------|---|---|---|---|
| LATIN AMERICA AND CARIBBEAN | Brazil: Racial inclusion for peacebuilding in Brazil <i>TFOC2136</i> | Strengthen the institutional efforts of the Ministry of Racial Equality to promote the inclusion of Afro-descendant youth, women, and Quilombola communities and reduce the high levels of violence afflicting Afro-descendants. The grant supports Afro-descendant youth inclusion and violence prevention, identification of land-related violence risks associated to Quilombola communities, and knowledge generation and dissemination. | July 2023 | \$400,000 |
| | Brazil: Land restitution and peacebuilding <i>TFOC3855</i> | Support the institutional efforts of the Ministry of Indigenous Peoples to prevent and reduce the high levels of land-related conflicts and violence against Indigenous communities, through the development and adoption of protocols for the peaceful negotiation and mediation of land conflicts. The grant will support the development of a mapping of conflicts in indigenous lands on a digital platform; support the development of standardized procedures and protocols to mediate and peacefully resolve conflicts on indigenous lands and territorial protection; and carry out meaningful consultations with organizations representing indigenous peoples and support training, generation and dissemination of knowledge for actors involved in the implementation of conflict mediation measures. | January 2024 | \$350,000 |
| | Dominican Republic: Multisectoral response to migratory flows <i>TFOB9982; TFOC1065</i> | Improve the institutional, statistical, planning, and coordination capacities to inform policy dialogue towards a multisectoral and inclusive response to migratory flows. The grant activities will advance an unprecedented coordinated and multisectoral migratory response, to advance an inclusive and peacebuilding agenda under an integrated strategic vision for the country. | November 2022 (Bank-executed) June 2023 (Recipient-executed) | \$400,000 (Bank-executed) \$4,600,000 (Recipient-executed) |
| | Haiti: Promoting GBV services for women and girls <i>TFOB9434</i> | Increase access to adequate and comprehensive services in targeted areas to GBV survivors and/or women and girls at risk. The grant activities focus on improving the quality and increasing the reach of services for GBV survivors, and on key knowledge, learning and communication activities to complement the service delivery and promote sustainability and scaling. | August 2022 | \$300,000 |

| REGION | COUNTRY AND GRANT TITLE | DEVELOPMENT OBJECTIVE | START DATE | GRANT AMOUNT |
|------------------------------|--|--|--------------|--------------|
| LATIN AMERICA AND CARIBBEAN | Haiti: Haitian Emigration Strategies for Institutional Capacity Preservation <i>TFOC5637</i> | Analyze the nature and impacts of Haitian emigration and identify innovative approaches to preserve institutional capacities. The grant will provide reliable and gender-disaggregated statistics on the emigration of Haitians in recent years; assess the impact of the mass emigration of skilled workers on Haiti's public and private sectors; and identify innovative migration approaches and policies for preserving institutional capacities. | August 2024 | \$200,000 |
| MIDDLE EAST AND NORTH AFRICA | Lebanon: Support reforms of the wheat and bread subsidy system <i>TFOB9266</i> | Develop an economically and fiscally sustainable, as well as a socially acceptable, reform pathway to transition away from the current wheat subsidy system. The grant activities aim to help avoid further escalation of the dire food insecurity situation and potential social unrest. | August 2022 | \$400,000 |
| | Libya: Recovery and Peacebuilding Assessment <i>TFOB8234</i> | Provide technical support to the government to establish a national strategy for recovery and peacebuilding as a key outcome of the Recovery and Peacebuilding Assessment process. The grant supports the Government of National Unity through data collection and management, capacity building, and the preparation of thematic policy papers, which will feed into the development of a national strategy. | March 2022 | \$400,000 |
| | Libya: Rapid Damage and Needs Assessment <i>TFOC2901</i> | Inform, guide and catalyze the sustainable and resilient recovery of flood-affected communities following the catastrophic flooding in September 2023. The Rapid Damage and Needs Assessment provides a systematic assessment of the impacts of the disaster and of the needs and requirements for ensuring sustainable and resilient recovery across all affected sectors. | October 2023 | \$400,000 |
| | West Bank and Gaza: Socioeconomic impact of the war in Gaza <i>TFOC4863</i> | Fill critical data gaps in support of the World Bank's emergency response and the broader humanitarian response, as well as to help to inform early recovery efforts. The grant supports four rounds of rapid welfare-tracking surveys to produce detailed, representative, and operationally relevant data about the socio-economic impacts of the conflict on households and individuals in Gaza. | May 2024 | \$270,000 |

| REGION | COUNTRY AND GRANT TITLE | DEVELOPMENT OBJECTIVE | START DATE | GRANT AMOUNT |
|---------------------------------------|--|--|--------------------------------------|---|
| MIDDLE EAST AND NORTH AFRICA | West Bank and Gaza: Mental and Family Health in Gaza <i>TFOC4774; TFOC5304</i> | Support preservation of human capacities, strengthen resilience, and establish foundations for recovery in Gaza by ensuring effective delivery of mental and family health services to internally displaced people. The grant will support strengthening mental and family health service delivery primarily for internally displaced people through (i) Recruitment and training of mental health and psychosocial support (MHPSS) service providers; (ii) Provision of community-level integrated outreach MHPSS and family health services; and (iii) Strengthening of integrated MHPSS and family health services delivery for internally displaced people at shelters and other service delivery points. | June 2024 | \$5,000,000 (Recipient- executed) \$400,000 (Bank- executed) |
| | West Bank and Gaza: Gaza Recovery, Reconstruction and Development Plan, Rapid Damage and Needs Assessment, and Conflict Recovery Framework <i>TFOC6550</i> | Inform, guide, and catalyze the resilient recovery of Gaza by completing a Rapid Damage and Needs Assessment (RDNA) and a Conflict Recovery Framework (CRF) and supporting the development of the Gaza Recovery, Reconstruction and Development Plan. This will be achieved through a systematic assessment of the impacts and recovery needs of the conflict through the RDNA across all social, physical and productive sectors of the economy; the development of a CRF that provides essential insights to the Palestinian Stakeholders and the international community for recovery planning, resource mobilization and allocation, and recovery implementation and management; and technical assistance to the Palestinian Authority in developing its recovery and reconstruction plan. | November 2024 | \$400,000 |
| SOUTH ASIA | Nepal: GBV prevention and response in Federal Nepal <i>TFOC1056; TFOC3548</i> | Increase women's and girls' access to integrated and multi-sectoral GBV response services in select municipalities. In order to address the challenges of the transition to federalism, namely knowledge and resource gaps at local level, severe paucity of basic GBV services and a lack of institutional coordinating structures that link federal, provincial and municipality levels in responding to GBV; a tripartite approach is needed that will create functioning GBV institutional response mechanisms at municipal-level; increase GBV service provision, access, and quality; and improve skills, attitudes, and beliefs of local institutional actors and first responders. | March 2023 (Bank- executed) | \$400,000 (Bank- executed) |
| | | | May 2024 (Recipient- executed) | \$4,600,000 (Recipient- executed) |

| REGION | COUNTRY AND GRANT TITLE | DEVELOPMENT OBJECTIVE | START DATE | GRANT AMOUNT |
|---------------|---|---|------------------------|--------------|
| GLOBAL | Gender and forced displacement in cities <i>TF0B8688</i> | Develop an operationally relevant framework for gender and forced displacement in cities. The grant supports an understanding of how urban forced displacement impacts women and men differently; identifies policies, actions, and measurable indicators that respond to these gender gaps; and develops guidance materials and tools that can be scaled. | May 2022 | \$210,000 |
| | Addressing gender inequalities in FCV by measuring the legal environment <i>TF0B8823</i> | Generate knowledge to address a clear set of gaps, including the lack of cross-country evidence on the role that implementation of laws protecting women's rights plays in ensuring their economic empowerment, and identify de facto hurdles to the full economic participation of women in FCS and economies with pockets of fragility. | June 2022 | \$350,000 |
| | Updated integrated framework for jobs in FCV situations <i>TF0B8925</i> | Inform the World Bank's and partners' support to jobs in situations affected by FCV. The grant supports targeted analysis of frontier issues relating to jobs in FCV - the impact of conflict on markets and aggregate demand and the scope for second-best reforms of macro-fiscal policy - and translates insights from these assessments and existing jobs work into policy messages to update the Integrated Framework for Jobs in FCS. | October 2022 | \$70,000 |
| | Operationalization of the gender dimensions of forced displacement <i>TF0B9181</i> | Address the spillover effects of forced displacement in five countries by providing guidance on closing gender gaps and preventing and responding to gender-based violence in forcibly displaced and host communities. | July 2022 | \$331,125 |
| | Analytics for justice and the rule of law in FCV & Justice Pillars Towards Evidence-Based Reform - In-country Justice Sector Assessment <i>TF0B9182; TF0C4449</i> | Provide outcome-based measures and analysis on justice and rule of law to facilitate the World Bank's policy dialogue and post-conflict recovery efforts in FCV countries. The grants will highlight the role of justice as a binding constraint for transition, post-conflict recovery and economic development; provide cross-country data for evidence-based policy dialogue and country-level engagement in support of clients' development goals and the World Bank's FCV Strategy; create entry points for justice and public sector reform; and provide data and analytics on the state of the justice sector in South Sudan to provide the basis for evidence-based engagement in judicial reform in the country. | July 2022 & March 2024 | \$400,000 |

| REGION | COUNTRY AND GRANT TITLE | DEVELOPMENT OBJECTIVE | START DATE | GRANT AMOUNT |
|--------|--|---|---------------|--------------|
| GLOBAL | Supporting crisis preparedness in FCV <i>TF0B9823</i> | Support client dialogue on crisis preparedness by identifying gaps and opportunities to strengthen the capacity of IDA, and IDA FCS countries, in particular to prepare for and manage crises in an effective and timely manner. The grant supports diagnostics, analytics, and knowledge to inform World Bank operations and programming in countries vulnerable to compound risks, including FCV risks. | October 2022 | \$225,000 |
| | Scaling adaptation finance in FCV <i>TF0B9986</i> | Address the adaptation funding gap by increasing the capacity of funders and recipients to scale up commitments and distribution of adaptation finance in FCV settings. The grant will generate new ideas and consolidate knowledge on scaling finance in FCV; promote novel partnerships; and incubate innovative ideas to scale adaptation financing in FCV. | December 2022 | \$350,000 |
| | Environmental peacebuilding in FCS <i>TF0C0605</i> | Strengthen the Bank's operational capacity for conflict sensitivity for environmental peacebuilding, especially in monitoring outcomes related to community-based natural resource management. The grant activities will strengthen organizational capacity for conflict sensitivity in operations, especially those related to environmental peacebuilding through community-based natural resource management and pilot activities for measuring outcomes thereof. | January 2023 | \$345,000 |
| | Financial development in FCV countries <i>TF0C1088</i> | Advance the World Bank's knowledge on financial development in FCV countries, thus informing policy advice and country engagements. By combining stocktaking exercises with novel empirical work focusing on the whole FCV spectrum, the grant activity will help identify financial policy priorities and their sequence with a focus on meeting immediate stabilization, recovery and peacebuilding while helping better calibrate relevant work programs. In so doing, the activity is expected to inform the design of financial sector-related ASA and operations in FCV settings. | March 2023 | \$100,000 |

| REGION | COUNTRY AND GRANT TITLE | DEVELOPMENT OBJECTIVE | START DATE | GRANT AMOUNT |
|--------|---|---|---------------|--------------|
| GLOBAL | Resilience and FCV <i>TFOC2141</i> | Fill knowledge gaps on resilience in FCV contexts and develop a more systematic approach for supporting resilience in World Bank diagnostics and operations. This will be achieved by exploring themes and key questions related to the three aspects of resilience, ranging from the more structural conceptualization of it to, more practically, what this means for the way that the World Bank approaches the identification of resilience in diagnostics such as Risk and Resilience Assessments (RRAs), Systematic Country Diagnostics and other analytics; and recommendations for informing its operationalization. | July 2023 | \$400,000 |
| | Insect farming for forcibly displaced <i>TFOC3140; RETF grant pending</i> | Pilot insect production and processing for increased resilience for forcibly displaced and host communities in Chad, Mexico, and Uganda. The pilot program focuses on forcibly displaced women and youth by helping them produce, process, and market micro livestock, or insects, for human food, animal feed, and fertilizers (IF4FFF). The improved economic resilience from insect farming will provide income, livelihoods, and food security for forcibly displaced populations and support reducing the negative spillovers from FCV and help these communities recover, thereby mitigating the risk of future violence. | November 2023 | \$800,000 |
| | Risk and Resilience Assessment Guidance Note on Justice and Rule of Law <i>TFOC3367</i> | Contribute to a better understanding of justice-related drivers of fragility and conflict through the preparation of an RRA Guidance Note that standardizes the way in which justice and rule of law issues are addressed in future RRAs, ultimately contributing to a more systematized inclusion of justice issues into country-level planning and operations. | November 2023 | \$60,000 |
| | Building Social Protection Systems in FCV Settings <i>TFOC5154</i> | Support the establishment of a strategic framework and identify effective approaches for social protection engagement, including but not limited to adaptive social protection, in FCV-affected countries. A Social Protection and Jobs Approach Paper will be produced to guide strategic and operational engagement in FCV settings with an aim to balance addressing immediate needs with contributing to state and peacebuilding for long-term development. | June 2024 | \$160,000 |

| REGION | COUNTRY AND GRANT TITLE | DEVELOPMENT OBJECTIVE | START DATE | GRANT AMOUNT |
|--------|--|--|---------------|--------------|
| GLOBAL | Peace and Social Dividends of Climate Action <i>TF0C7472</i> | Inform global discussions and practice on climate and FCV by producing and disseminating a flagship study on 'Peace and Social Dividends of Climate Action.' The flagship study will provide concrete and actionable frameworks and guidance to policymakers and practitioners on how to integrate social sustainability principles and FCV sensitivity into climate action, as a way to promote positive social and peace outcomes. | February 2025 | \$400,000 |
